

TAJUDDIN AHMED BIJOY

FULL-STACK DEVELOPER

Dhaka, Bangladesh | bijoy.ahmed12555@gmail.com | +880 1924-753893 | github.com/Bijoy2406

SKILLS

FRONTEND

React Next.js (App Router) TypeScript
HTML CSS Tailwind CSS GSAP Framer Motion

BACKEND

Node.js Express.js Laravel (PHP)
REST APIs JWT bcrypt Nodemailer

DATABASE & TOOLS

PostgreSQL Supabase (RLS) MongoDB
MySQL Sanity CMS Cloudinary

LANGUAGES & OTHER

JavaScript TypeScript PHP Python
Java C C++ Git GitHub Figma

PROJECTS

Denz — E-Commerce Platform

denzapparel.com

Client Project | Next.js 14, TypeScript, Supabase, PostgreSQL, Cloudinary

- Built full-stack clothing store with product browsing, cart, checkout, and order tracking
- Designed dual dashboards (customer and admin) for product, order, and ad management
- Implemented role-based access control with Supabase Row-Level Security policies
- Integrated Google OAuth with server-side Supabase client for secure SSR data access
- Built custom Cloudinary image loaders for automatic WebP/AVIF optimization

Farzana Afroz Foundation — NGO Website

farhanaafrozfoundation.org

Client Project | Next.js 15, TypeScript, Tailwind CSS, Sanity CMS, Framer Motion, EmailJS

- Built production website for a real NGO client with event galleries, team showcase, and FAQ
- Integrated Sanity CMS so non-technical staff can update all content without touching code
- Implemented QR code donation system, EmailJS contact forms, and ISR revalidation via webhook
- Added Cloudinary-based anti-download image protection with CSS and React hooks

SSRN — Ride-Booking Frontend

ssrn-app.netlify.app

Client Project (USA) | HTML, CSS, JavaScript, Netlify

- Translated Figma designs pixel-perfectly into a fully responsive multi-page frontend
- Built complete auth flows (login, signup, OTP verification, password reset) and multi-step booking UI
- Developed custom date/time/duration picker components from scratch without any libraries
- Maintained 119+ pull requests with Figma ticket-referenced commit messages

Navid Portfolio — Photographer & Cinematographer

tamzidnavid.netlify.app

Client Project (USA) | Next.js 15, React 19, Tailwind CSS v4, GSAP, TypeScript

- Built single-page portfolio with YAML-driven content so client edits copy without touching code
- Implemented GSAP scroll animations and fully responsive layout

CampusCrew — Campus Event Management Platform

Hackathon Project | React, Node.js, Express, MongoDB, Google Gemini API, Qdrant

- Built full-stack event platform with JWT auth, email verification, and bKash payment integration
- Implemented automated PDF certificate generation and QR code verification for attendees
- Built a RAG chatbot using Gemini embeddings and Qdrant vector store, constrained to answer only from site-specific content via cosine similarity search and keyword fallback

RefinedTech — Refurbished Gadget Marketplace

University Project / Laravel, PHP, MySQL, React / Role: Backend Developer

- Built backend for a multi-user marketplace for buying and selling refurbished electronics
- Implemented role-based dashboards (buyer, seller, admin, super admin) with hierarchical permissions
- Developed escrow payment flow, condition verification system, and product recommendation API
- Set up Google/GitHub OAuth, email verification, and admin access code system in Laravel

QuickLift — Ride-Sharing Platform

University Project / React, Laravel, Google Maps API, JWT / Role: Frontend Developer

- Built React frontend with real-time ride tracking and Google Maps route optimization
- Implemented passenger and driver dashboards, ride booking flow, and trip history

EDUCATION

BSc in Computer Science and Engineering

2022 – Present

Ahsanullah University of Science and Technology (AUST), Dhaka

- Currently in 6th Semester (3rd Year)

ADDITIONAL INFORMATION

- **Certification:** The Infinity AI BuildFest 2026 – Participation Certificate, CloudCamp Bangladesh Verify
- **Languages:** Bengali (Native), English (Professional)
- **AI / Other:** RAG pipelines, Vector embeddings (Gemini API), Qdrant, Telegram Bot API
